To whom it may concern

PHOTOGRAPHY WORK ON THE TRAIN MUSEUM IN DOWNPATRICK

A few years ago, we developed a concept of the extension of the Railway museum in Downpatrick and connect it to the St Patrick centre. I contacted Tim Connolly from Reencon Development Services, he had been recommended by our building control department. Tim prepared a detailed map and organised a well detailed photography of what it would look like. I have been very satisfied with the work Reencon produced and it certainly helped us in the development of this area.

Yours sincerely

Eric Tommasini
Towns' Centre Manager
